CHAPTER _____

An act to amend Sections 21455.5, 21455.6, and 21455.7 of the Vehicle Code, relating to vehicles.

LEGISLATIVE COUNSEL'S DIGEST

AB 1022, Oropeza. Vehicles: automated enforcement systems.

(1) Existing law authorizes the limitline, intersection, or other places where a driver is required to stop to be equipped with an automated enforcement system, as defined, if the system meets certain requirements. Existing law limits the authority to operate an automated enforcement system to governmental agencies, in cooperation with law enforcement agencies.

This bill would define the term “operate” for purposes of these provisions and would prohibit a contract between a governmental agency and a manufacturer or supplier of automated enforcement equipment from including a provision for the payment or compensation to the manufacturer or supplier based on the number of citations generated, or as a percentage of the revenue generated, as a result of the use of the equipment as authorized under these provisions.

The bill would authorize the governmental agency to contract out the operation, as defined, of the system under certain circumstances, except for certain activities that the bill would prohibit from being contracted out to the manufacturer or supplier of the automated enforcement system.

The bill would specify that the provisions prohibiting the payment or compensation to the manufacturer or supplier based on the number of citations generated or percentage of revenue generated do not apply to a contract that was entered into by a governmental agency and a manufacturer or supplier of automated enforcement equipment before January 1, 2004, unless that contract is renewed, extended, or amended on or after January 1, 2004.

(2) Existing law requires that, at an intersection at which there is an automated enforcement system in operation the minimum yellow light change interval be established in accordance with the Traffic Manual of the Department of Transportation.

This bill would specify that the minimum yellow light change intervals relating to designated approach speeds provided in that manual are mandatory minimum yellow light intervals.

The people of the State of California do enact as follows:

SECTION 1. Section 21455.5 of the Vehicle Code is amended to read:

21455.5. (a) The limit line, the intersection, or a place designated in Section 21455, where a driver is required to stop, may be equipped with an automated enforcement system if the governmental agency utilizing the system meets all of the following requirements:

(1) Identifies the system by signs that clearly indicate the system's presence and are visible to traffic approaching from all directions, or posts signs at all major entrances to the city, including, at a minimum, freeways, bridges, and state highway routes.

(2) If it locates the system at an intersection, and ensures that the system meets the criteria specified in Section 21455.7.

(b) Prior to issuing citations under this section, a local jurisdiction utilizing an automated traffic enforcement system shall commence a program to issue only warning notices for 30 days. The local jurisdiction shall also make a public announcement of the automated traffic enforcement system at least 30 days prior to the commencement of the enforcement program.

(c) Only a governmental agency, in cooperation with a law enforcement agency, may operate an automated enforcement system. As used in this subdivision, "operate" includes all of the following activities:

(1) Developing uniform guidelines for screening and issuing violations and for the processing and storage of confidential information, and establishing procedures to ensure compliance with those guidelines.

(2) Performing administrative functions and day-to-day functions, including, but not limited to, all of the following:

(A) Establishing guidelines for selection of location.

(B) Ensuring that the equipment is regularly inspected.

(C) Certifying that the equipment is properly installed and calibrated, and is operating properly.

(D) Regularly inspecting and maintaining warning signs placed under paragraph (1) of subdivision (a).

(E) Overseeing the establishment or change of signal phases and the timing thereof.

(F) Maintaining controls necessary to assure that only those citations that have been reviewed and approved by law enforcement are delivered to violators.

(d) The activities listed in subdivision (c) that relate to the operation of the system may be contracted out by the governmental agency, if it maintains overall control and supervision of the system. However, the activities listed in paragraph (1) of, and subparagraphs (A), (D), (E), and (F) of paragraph (2) of, subdivision (c) may not be contracted out to the manufacturer or supplier of the automated enforcement system.

(e) (1) Notwithstanding Section 6253 of the Government Code, or any other provision of law, photographic records made by an automated enforcement system shall be confidential, and shall be made available only to governmental agencies and law enforcement agencies and only for the purposes of this article.

(2) Confidential information obtained from the Department of Motor Vehicles for the administration or enforcement of this article shall be held confidential, and may not be used for any other purpose.

(3) Except for court records described in Section 68152 of the Government Code, the confidential records and information described in paragraphs (1) and (2) may be retained for up to six months from the date the information was first obtained, or until final disposition of the citation, whichever date is later, after which time the information shall be destroyed in a manner that will preserve the confidentiality of any person included in the record or information.

(f) Notwithstanding subdivision (d), the registered owner or any individual identified by the registered owner as the driver of the vehicle at the time of the alleged violation shall be permitted to review the photographic evidence of the alleged violation.

(g) (1) A contract between a governmental agency and a manufacturer or supplier of automated enforcement equipment may not include provision for the payment or compensation to the manufacturer or supplier based on the number of citations

generated, or as a percentage of the revenue generated, as a result of the use of the equipment authorized under this section.

(2) Paragraph (1) does not apply to a contract that was entered into by a governmental agency and a manufacturer or supplier of automated enforcement equipment before January 1, 2004, unless that contract is renewed, extended, or amended on or after January 1, 2004.

SEC. 2. Section 21455.6 of the Vehicle Code is amended to read:

21455.6. (a) A city council or county board of supervisors shall conduct a public hearing on the proposed use of an automated enforcement system authorized under Section 21455.5 prior to authorizing the city or county to enter into a contract for the use of the system.

(b) (1) The activities listed in subdivision (c) of Section 21455.5 that relate to the operation of an automated enforcement system may be contracted out by the city or county, except that the activities listed in paragraph (1) of, and subparagraphs (A), (D), (E), or (F) of paragraph (2) of, subdivision (c) of Section 21455.5 may not be contracted out to the manufacturer or supplier of the automated enforcement system.

(2) Paragraph (1) does not apply to a contract that was entered into by a city or county and a manufacturer or supplier of automated enforcement equipment before January 1, 2004, unless that contract is renewed, extended, or amended on or after January 1, 2004.

(c) The authorization in Section 21455.5 to use automated enforcement systems does not authorize the use of photo radar for speed enforcement purposes by any jurisdiction.

SEC. 3. Section 21455.7 of the Vehicle Code is amended to read:

21455.7. (a) At an intersection at which there is an automated enforcement system in operation, the minimum yellow light change interval shall be established in accordance with the Traffic Manual of the Department of Transportation.

(b) For purposes of subdivision (a), the minimum yellow light change intervals relating to designated approach speeds provided in the Traffic Manual of the Department of Transportation are mandatory minimum yellow light intervals.

(c) A yellow light change interval may exceed the minimum interval established pursuant to subdivision (a).

Approved _____, 2003

Governor
